Q: How to publish a game on Mac? I've just started making the game I created for my own, and I wanted to know how you actually publish a game. I've seen a lot of tutorials on how to make the game, and how to actually publish it. However, I don't understand how I can actually publish the game. Do I need to do anything special to be able to publish it? There doesn't seem to be much information on the internet about it. I've already seen the "Publish for iPhone" but it doesn't explain much more than how to actually publish it. So how exactly do I do it? How can I get it on the App Store? A: You need to make a Mac App. You can make it from scratch or use a Mac app template. Mac App You create the app from scratch using Xcode. You can use a template, usually made by someone who has previously used Xcode to build apps. You can get an existing app template that was created using Xcode. The iOS version is very easy to make. Create it from scratch or use a template, make sure you create the main app and you created the "Launching Screen" The Mac version is the more difficult of the two, but it gives you more control. You can make it from scratch or use

---

a template. If you need to change your product name, create a new bundle identifier, and if you are using iOS templates have a look into "iOS Banners", here is a tutorial on how to use them. If you want to publish to the App Store, you have to make your app "Ad Hoc" without a Distribution Certificate. Then you can upload it to the store. Note: I am not affiliated with Cocos2d-x, I just found it really useful to get started [Biological quality of tap and near-tap water in Caracas, Venezuela]. In 1985 the biological quality of tap water in Caracas, Venezuela, was studied in 24 cities. Seventy eight per cent of these samples had fecal coliform counts higher than 100 per 100 ml. Escherichia coli counts exceeded 100 per 100 ml in 30 per cent of the samples, revealing the occurrence of acute infection. Seven percent of the samples had high bacterial growth and high numbers of fecal coliform (greater than or equal to
